REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In regard to claims 1, 8, 18, and 23, the prior art does not disclose or render obvious where a first width is wider than a second width, wherein the first width of the signal trace is located in a signal trace anti-pad region and wherein an impedance discontinuity between the at least one signal trace and a component electrically connected to the at least one via is lowered from above about 5 ohms to less than about 1 ohm in the combination as claimed (also see remarks pgs 7 and 8).

Claims 2, 4-6, 9-13, 15-17, 19-21, and 24 are allowable because they depend from an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
